

Diagnostic Products

Equipment and testing supplies for enhanced detection of disease.

Simple solutions. Significant results.

We take pride in providing reliable, accurate and durable products that help in earlier diagnosis and prevention of disease. Explore this catalog featuring the latest additions to our popular line of diagnostic instruments and equipment, as well as our testing and laboratory products.

Diagnostic Wall System

- Our fully modular system can be customized to your needs and expanded or upgraded at any time
- Non-slip, ergonomically designed handles with patented technology for 100% light output with variable light adjustment and automatic safety shut-down after 2 minutes
- LED or xenon illumination options for instrument heads with a new **EliteVue macro-otoscope that exceeds the magnification of the market leader¹**
- Wall systems available with or without premounted gray plastic mounting board that measures 31" x 16" x 1/4"
- Three-year warranty on all wall systems; items non-returnable

Customizable to fit your needs

Otoscopies

- Available with rechargeable lithium-ion batteries or lithium batteries
- Fiber optic LED or Xenon (XL) lighting options available for optimal light transmission
- Rheotronic capabilities—handles allow for brightening and dimming of light output with the twist of the collar
- Auto shut off after 180 seconds to save battery and bulb life
- Bi-directional swiveling, sealing optical glass with 3x magnification (L2 and L3)
- Suitable for pneumatic tests (supplied without bulb)
- Two-year warranty

L2 Otoscope

- 3x magnification with optional operation lens with 4x magnification available
- For use with specula MDSK10321 (2.5 mm) or MDSK10331 (4.25 mm)

Item No.	Description	Battery Type	Pkg.
MDS3716	2.5V Xenon	●	1 ea
MDS3703	3.5V LED	●	1 ea
MDS3703550	3.5V LED, Rechargeable	●	1 ea

L3 Otoscope

- 30operation lens with 4x magnification and glass mini-optic ease the insertion of instruments
- Easy-to-operate SpecEjec specula ejection button on the rear side of instrument head to reduce risk of cross contamination
- For use with SpecEjec speculas MDS10803533 (3 mm) or MDS10803534 (4 mm)

Batteries sold separately unless noted

Item No.	Description	Battery Type	Pkg.
MDS3701	2.5V Xenon	●	1 ea
MDS3704	3.5V LED	●	1 ea
MDS3704550	3.5V LED, Rechargeable	●	1 ea

Elite Vue Otoscope

- More than 5-fold magnification with twice the field of view
- Complete view of tympanic membrane, outperforming the market leader
- Wheel to adjust focal depth
- Comes standard with SpecEjec feature at the rear side of the otoscope to reduce risk of cross contamination
- For use with SpecEjec speculas MDS10803533 (3 mm) or MDS10803534 (4 mm)

Item No.	Description	Battery Type	Pkg.

MDS3703

MDS2200202E

Ophthalmoscopes

- Available with rechargeable lithium-ion batteries, lithium batteries or C cell alkaline batteries
- Filter wheel engageable for all apertures with symbol display, red-free filter, blue filter and polarization filter
- Fully enclosed optics prevent any dust particles from entering the ophthalmoscope head
- Two-year warranty

L2 Ophthalmoscope

- Diopter wheel with 29 corrective lenses—
Plus 1-10, 12, 15, 20, 40; Minus 1-10, 15, 20, 25, 30, 35
- Easy-to-operate aperture hand-wheel with semi-circle, small/medium/large circle, fixation star, and slit

Item No.	Description	Battery Type	Pkg.
MDS3725	3.5V Xenon	●	1 ea
MDS3725550	3.5V Xenon, Rechargeable	●	1 ea

L3 Ophthalmoscope

- Diopter wheel with 89 corrective lenses—
Plus 1-45 in single steps, Minus 1-44 in single steps
- Easy-to-operate aperture hand-wheel with semi-circle, small/medium/large circle, fixation star, slit and grid
- Focusing device with zero retention force for the quick correction of ametropias

Item No.	Description	Battery Type	Pkg.

★ MDS3762E

e-scope Otoscope/Ophthalmoscope Sets (Pocket Instruments)

- e-scope pocket instruments are available with LED or Xenon light sources.
- Innovative 3.7V LED illumination provides a higher contrast for a more efficient diagnosis
- Diopter disc with 18 corrective lenses (+/- 1, 2, 3, 4, 6, 8, 10, 15, 20 diopters)
- Easy-to-use aperture wheel with six different apertures (fixation star, large circle, small circle, red free filter, blue filter, semi circle)
- High performance optics with aspherical condenser lens
- Spectacle protection
- Parallel optical path
- Two-year warranty
- For use with AA alkaline batteries, MPHBA

Exam Lighting

MDSNIGHTLT

MDSSAFELT

Medline White LED Night-Light

- Features a soft, calming glow that automatically turns on at night and off at sunrise
- The low energy consumption LED light functions for the life of the unit without needing replacement
- Helps with fall prevention by improving visibility and orientation in low-light environments, especially during nighttime trips to the bathroom or kitchen.

Item No.	Description	Pkg.
MDSNIGHTLT	White LED Night Light	2/pk

Medline Gravity Sensor Safety Light

- Gravity-activated light operates on any horizontal surface and turns on/off with the slightest touch
- Portable, fun, and easy-to-use with large labeling
- Features 2 light modes (bright and dim) for brightness control
- Long lasting rechargeable battery offers 28 hours of battery life in dim mode and 4 hours under bright mode
- Can be used as a night lamp or light resource for fall prevention

Item No.	Description	Pkg.
MDSSAFELT	Gravity Sensor Safety Light	1 ea

Vital Signs Monitors

Medline Vital Signs Monitors

- Lightweight, ultra-low profile design with large 8" touchscreen display and intuitive controls
- Over 16,000,000 readings of internal memory and 1,000 individual patient profiles
- Included: (1) adult reusable NIBP cuff, (1) reusable adult SPO2 sensor, (1) box of probe covers (thermometer models)
- BP, SpO2, and Optional Oral or Tympanic Thermometers
- **Industry leading 3-year warranty** for monitor; 1-year for accessories
- Demo units available for 2 weeks

Vital Signs Monitors

Vital Signs Monitor with Medline CareConnection®

- Our vital signs monitor with CareConnection is the integrated solution to your documentation problems—auto documenting data in real time and delivering clinically sophisticated alerts that identify out-of-range measurements and report potential health crises
- Compatible with multiple EMR systems:
 - PointClickCare
 - MatrixCare SNF
 - MatrixCare LPC
 - Cantata Health
 - Sigma Care
 - Well Sky
- Speeds clinical information to your EMR system using the Wi-Fi enabled CareConnection touchscreen tablet†

This monitor is compatible with Medline's 1-tube HP/bayonet connector blood pressure cuffs. Please refer to page 30 for item numbers.

Vital Signs Monitors

8" color touch screen with user-friendly interface and integrated help function

Displays SYS, DIA, MAP, pulse, and temperature

Battery life: 17 hours on-time, 11 hours run-time in continuous monitor mode

EMR and LAN connectivity

Supports nurse call RJ11 port

Internal memory can hold 5,000,000 individual readings (5,000 measurements for 1,000 patients measurements) and keeps information safe for up to 200 years in the event of a power outage

3 measurement modes: monitor, spot-check and triage

4 USB ports (2 on the front, 2 on the side)

MDSRVSBST1

RVS-100 Advanced Vital Signs Monitor

- Monitor, SpotCheck and Triage monitoring options and BP averaging mode (customizable between 2–5 measurements)
- High performance touch screen with integrated help function
- Wired or wireless connection to the account's EMR (HL7 standard)

2 year warranty with option to renew for free
Desk, floor and wall models available

Patient Monitors

X Series Patient Monitors

The X series patient monitors are fast, accurate and cost effective. They measure NIBP, SpO2, ECG, temperature and optional CO2 anywhere and anytime

- High resolution touch display with user-friendly interface
- Unique cable management handle for easy cable storage
- No-fan design for zero noise production when in use
- Automatic arrhythmia identification
- Wireless communication with Central Monitoring Station (sold separately)

ECG Monitors

12-Lead Interpretive ECG Monitor

- Portable ECG accurately records, stores and shares cardiac rhythms for diagnosis and care
- Anti-noise technology and comprehensive filters for more accurate patient readings; real-time ECG waveform freezing and review to assist with diagnosis
- Communicates with most PCs, networks or printers; interfaces using USB, SD card, Ethernet and more
- Built-in thermal printer; connects to most USB printers
- Stores up to 200 ECGs in internal memory

ECG Monitors

PC-Based ECG with Software and Sampling Boxes

- PC-based 12-lead CardioResting ECG systems turn any PC into a full-featured electrocardiograph
- Cardio Universal EMR interface connects to EMRs
- Systems perform resting ECG (wireless solution)
- Unlimited database, auto interpretations, and easy-to-manage reports are included
- Fully integrated with built-in networking
- These customizable solutions enhance office workflow
- Large screen display
- 2 year limited warranty from the manufacturer Nasiff

Item No.	Description	Pkg.
NSACCECG1	CardioResting ECG System, 12-Lead, with EMR Connected Software, Leadwires, Electrodes, and USB Cable for Connection	1 ea

ECG Monitors

PC-Based ECG with Software and Sampling Boxes, continued

- Includes reliable, interpretive SEMIP® algorithm for better diagnosis reference
- Color-coded lead map and ECG waveforms facilitate instant signal quality indications; arrhythmia segments can be detected highlighted and save automatically
- Resting ECG: Supports up to 30 minutes of ECG acquisition with full disclosure waveforms; VCG, TVCG, SAECG, QTD, HRV, and HRT analysis are also available for corresponding applications
- Stress Test: Supports unlimited user-defined protocols with automatic 12-lead reports; reporting options also include ST Assessment, METs, Double Product, Duke Score and FAI%

Fetal Monitors and Handheld Dopplers

DigiDop Classic 300 and 301 Series Fetal and Vascular Doppler

- Non-display dopplers are audio-only, providing loud and clear sound
- Include a display to show battery condition, signal strength, and volume setting
- Dopplers utilize Digital Sound Clarity DSC technology to amplify the signal up to 6x, while also reducing background noise
- Magnetic probe holder uses strong magnets to help keep probe in place
- 300 Dopplers operate on 3 AA alkaline batteries; 301 Dopplers are rechargeable

Item No.	Description	Pkg.

Fetal Monitors and Handheld Dopplers

Simple ABI Handheld PVR Systems

- ABI empowers healthcare professionals to detect peripheral artery disease (P.A.D.) in its early stages, significantly improving patient well-being.
- Enjoy enhanced manual control over the examination process, ensuring a comprehensive view of extremity blood flow.
- Its small and easily transportable design makes it ideal for mobile imaging services, community health fairs, and practices requiring flexibility.
- Delivers clinically precise results, simplifying reimbursement procedures and enhancing confidence in diagnosis.

Ultrasound Monitors

Acclarix LX9 Ultrasound System

- Features 21.5" high-resolution LCD monitor with 14" sensitive touch screen for efficient operation at your fingertips, along with 6 active transducer ports (MDSC52Q, MDSL177Q, MDSL125Q, MDSP51Q, MDSE84Q, MDSC62MQ), sold separately
- Integrated user interface offers 180-degree rotation and electronic height adjustment plus extra-long continuous scanning time from 2 built-in batteries
- Smart workflow includes: eVolume (automatic vascular volume calculation), eOptimized (1 key optimization in Blk/Color/PW mode), eLV (comprehensive analytical tool in cardiac function), eOB (automatic identification and calculation in OB scanning), eLearn (intelligent scan coaching for versatile application), and eTouch (unique gesture control within 1 touch)
- Tissue Adaptive Imaging (TAI) continuously and automatically optimizes imaging, allowing more focus on the patient
- Ideal for various clinical applications, including abdomen, OB/GYN, cardiac screening, vascular, breast, small parts, MSK, and nerve imaging

Heated Comfort

Medline Heated Electric Throw Blanket

- Easy-to-use heated electric throw blanket features 4 heat settings for adjustment to different users
- 4-hour auto-shut off function provides peace of mind
- Ultra comfy flannel with reversible sherpa material offers added warmth and comfort in a stylish gray color
- Machine washable and dryer safe for simple care
- Comes complete with wrap, 10 ft. power cord and instruction manual

Item No.	Description	Pkg.
MDSHTBLANKET	Heated Electric Throw Blanket with Reversible Sherpa, 50" x 60"	1 ea

MDSHTBLANKET

Medline Heated Shoulder and Neck Wrap

- Shoulder and neck heating pad wrap features 3 temperature settings designed to provide targeted heating to help soothe muscles
- 2-hour automatic shut-off is helpful in case the wrap is inadvertently left on
- Weighted trim and neck snap help hold wrap firmly in place while it conforms to your neck and shoulders
- Tailored, dark blue micro-plush cover provides added comfort
- Comes complete with wrap, 10 ft. power cord, and instruction manual

Item No.	Description	Pkg.
MDSHTNECK	Heated Shoulder and Neck Wrap, Dark Blue, 18" x 15.5"	1 ea

MDSHTNECK

Blood Pressure Cuffs

Disposable Blood Pressure Cuffs and Connectors

- Medline's single patient use cuffs are made from a soft, comfortable woven polyester fabric
- Each cuff has rounded corners and finished edges for optimal comfort
- Hook-and-loop closures ensure a lasting and snug fit for every patient
- Cuffs come in a wide range of infant to adult sizes, each color-coded for convenience. All sizes meet the American Heart Association recommendations for accuracy
- A complete line of connectors and adapters connect cuffs to virtually every non-invasive blood pressure monitor

Choosing the right size cuff

The following charts will help you determine the correct cuff size based on the patient's upper arm circumference. Please note that if you choose a cuff that is not the appropriate size, readings may not be accurate.

Blood Pressure Cuffs

Contour Cuffs

- Curved profile offers a proper fit, helping ensure reliable BP measurements
- Conical shape accommodates upper arm circumference of 38-54 cm
- Available in reusable and disposable models
- Same helpful features as our standard cuffs
- HP/Bayonet connector

MDS9914BC

Item No.	Description	Pkg.
MDS9914BC	Disposable Contour Cuff	5/bg

Single-Patient Use Sphygmomanometers

- Includes a vinyl white cuff, bulb and gauge
- Can be assigned to one patient and then discarded when no longer needed
- Helps to reduce potential for cross-contamination between patients, caregivers and family members

MDS9800

Item No.	Cuff Size (Limb Circumference)	Pkg.
MDS9800	Adult (23-33 cm)	5/bx

Blood Pressure Cuff Covers and Barriers

- Help reduce the potential of cross-contamination by using protective, disposable blood pressure cuff covers and barriers
- Manufactured without latex
- Made of Tyvek® material

MDS917115	Large Cuff Barrier, 22" x 8"	150/cs

MDS917114

Improve efficiency with standardization program

Multiple cuffs. Different machines. Too many connectors. Searching for the right blood pressure combination wastes valuable caregiver time and can affect patient care. Standardize your products so you only need one type of connector, improving efficiency and patient care.

Blood Pressure Devices

Medline Blood Pressure Monitor with Bluetooth

- Connects to the Medline Health app via Bluetooth and offers blood pressure measurement, pulse rate measurement, and storage of results
- Readings taken are equivalent to those obtained by a trained observer using the cuff and stethoscope auscultation method
- Includes a universal-size cuff (22 cm - 42 cm) and uses measure-during-inflating technology for fast results
- MDS7001B has a built-in rechargeable lithium battery, charger included. MDS8001B includes 4 AA batteries.
- Stores 120 measurements total, 60 each for 2 users; unlimited storage on the Medline Health app

MDS7001B

Stethoscopes

MDS9557

MDS926303

Pediatric/Neonatal Aluminum Stethoscope

- Both stethoscopes feature thick-wall 22" (56 cm) tubing and lightweight design
- All features of the dual-head stethoscopes but sized to fit the needs of the individual practitioner and patient
- Thick-walled tubing minimizes background interference

Item No.	Description	Pkg.
MDS9557	Gray, Pediatric	1 ea
MDS9565	Gray, Neonatal	1 ea

Sprague-Rappaport Stethoscope

- Sprague-Rappaport style incorporates versatility into an excellent sound-transmitting device.
- Each stethoscope comes complete with a component kit that includes two sets of ear tips, large and small diaphragm, adult bell, pediatric bell and infant bell
- The dual 22" (56 cm) tubing design transmits even the faintest sounds

Hearing Assistive Devices and Protection

Medline Rechargeable Over the Counter (OTC) Hearing Aids

- These FDA cleared, noninvasive devices are intended for adults with mild to moderate perceived hearing loss
- In-The-Ear and Behind-The-Ear styles are offered in both Bluetooth and Standard models. Bluetooth models include hands-free calling and music streaming on iOS and Android devices
- Include voice prompt guidance to assist with volume control, environmental settings and Bluetooth pairing
- Clinically designed and optimized with easy-to-use controls and enhanced noise reduction that allows for sound clarity in the presence of background noise
- Volume adjustments can be made based on hearing loss as well as on 4 environmental settings: standard, restaurant, outdoor and music
- Each package comes complete with 1 pair of OTC hearing aids, portable charging case, USB cord, multiple ear domes, cleaning tool, user guide, and quick start guide

Hearing Assistive Devices and Protection

Ear Plugs

- Earplugs are made of high-fidelity foam to reduce noise
- Provide noise reduction of 35 dB
- Highly visible bright orange color
- Come in individually wrapped pairs

Item No.	Description	Pkg.
MDSEARPLUGS	High-Fidelity Foam Earplugs, 50 Pairs/Bag, 30 Bags (1500 Pair)/Case	1,500/cs
MDSEARPLUGSH	High-Fidelity Foam Earplugs, 50 Pairs/Bag	50/bg

MDSEARPLUGS

Medline Silicone Swimming Earplugs

- Earplugs made of soft silicone offer a comfortable and conforming fit
- They help keep water out of swimmers' ears
- 3-tier design with blue color
- Reusable
- Store in a cool, dry place when not in use; not above 131°F (55° C)

Item No.	Description	Pkg.

MDSSWIMPLUG

Medline Digital Over-The-Ear Hearing Amplifier

- Battery-powered, over-the-ear hearing amplifier features 4-level volume control that allows users to customize the sound
- Amplifier consists of a comfortable earplug with interchangeable sizes connected by a flexible ear hook
- Ideal for practically all ages and ear sizes to amplify environmental sounds
- Not intended for use by individuals diagnosed with hearing issues
- Powered by size A675 battery; 2 batteries are included (Replacement Battery B-UA675 is sold separately)

Item No.	Description	Pkg.
MDSHEARAMP	Digital Over-The-Ear Hearing Amplifier	1 ea

MDSHEARAMP

Electrodes

General Monitoring

Specially formulated high-performance gel and extended conductive surface offer clear, reliable tracings, with a convenient lift-tab for easy liner removal.

MedGel® General Monitoring Foam Electrodes

RECOMMENDED FOR: ICU/CCU, EMERGENCY, OR, PATIENT ROOMS

- This top seller has a fluid-resistant foam backing
- Flexible foam material hugs body contours, ensuring optimal skin contact for consistent tracings

Item No.	Description	Pkg.
MDSM611503		3/pk, 60/bx, 600/ct, 3,600/cs
MDSM611505	General Monitoring Foam	5/pk, 100/bx, 1,000/ct, 6,000/cs
MDSM611550		50/pk, 1,000/ct, 6,000/cs

MDSM611505

MedGel® General Monitoring Cloth Electrodes

RECOMMENDED FOR: ICU/CCU, PATIENT ROOMS

Non-woven cloth conforms to the natural curves of the patient for enhanced comfort

Item No.	Description	Pkg.
MDSM611303		3/pk, 60/bx, 600/ct, 3,600/cs
MDSM611305	General Monitoring Cloth	5/pk, 100/bx, 1,000/ct, 6,000/cs
MDSM611350		50/pk, 1,000/ct, 6,000/cs

MDSM611305

MedGel® General Monitoring Tape Electrodes

RECOMMENDED FOR: ICU/CCU, EMERGENCY, OR, PATIENT ROOMS

- Clear tape allows you to evaluate the patient's skin under the electrode
- Flexible leadwire attachment with perforated strip backing

Item No.	Description	Pkg.
MDSM611403		3/pk, 60/bx, 600/ct, 3,600/cs
MDSM611405	General Monitoring Tape	5/pk, 100/bx, 1,000/ct, 6,000/cs
MDSM611450		50/pk, 1,000/ct, 6,000/cs

MDSM611405

Electrodes

Radiolucent General Monitoring

These electrodes feature a plastic carbon snap and convenient lift-tab for use during X-rays and MRIs in areas where metal is prohibited—for standardization throughout your facility.

MedGel® Radiolucent Foam Electrodes

RECOMMENDED FOR: CATH LAB, RADIOLOGY

- This top seller has a fluid-resistant foam backing
- Flexible foam material follows natural curves of the patient for maximum skin contact

Item No.	Description	Pkg.
MDSM611803R		3/pk, 60/bx, 600/ct, 3,600/cs
MDSM611805R	Radiolucent Foam	5/pk, 100/bx, 1,000/ct, 6,000/cs

MDSM611805R

MedGel® Radiolucent Cloth Electrodes

RECOMMENDED FOR: CATH LAB, RADIOLOGY

Non-woven cloth gently conforms to the patient's body contours, enhancing comfort

Item No.	Description	Pkg.
MDSM611250R	Radiolucent Cloth	50/pk, 1,000/ct, 6,000/cs

MDSM611250R

MedGel® Radiolucent Tape Electrode

RECOMMENDED FOR: CATH LAB, RADIOLOGY

Clear tape allows you to evaluate the patient's skin under the electrode

Item No.	Description	Pkg.
MDSM611605R	MedGel Radiolucent Tape Electrode	5/pk, 3,600/cs
MDSM611650R	Radiolucent Tape	50/pk, 1,000/ct, 6,000/cs

MDSM611650R

Electrodes

Stress/Diaphoretic Foam Electrodes

Designed specifically for situations requiring a robust adhesive, these electrodes have a comfortable medical-grade foam that resists fluids. The teardrop shape directs sweat around the electrode and stays securely in place during demanding tracing applications.

MedGel® Stress/Diaphoretic Foam Electrodes

RECOMMENDED FOR: CARDIOLOGY, STRESS TEST

- Exceptionally powerful adhesive withstands heavy sweating
- High-performance gel and large conductive area provide clear tracings

Item No.	Description	Pkg.
MDSM611903	Stress Foam	3/pk, 60/bx, 600/ct, 3,600/cs
MDSM611905	Stress Foam	5/pk, 100/bx, 1,000/ct, 6,000/cs
MDSM611950	Stress Foam	50/pk, 1,000/ct, 6,000/cs
MDSM611903P	Premium Adhesive Stress Foam	3/pk, 60/bx, 600/ct, 3,600/cs
MDSM611905P	Premium Adhesive Stress Foam	5/pk, 100/bx, 1,000/ct, 6,000/cs
MDSM611950P	Premium Adhesive Stress Foam	50/pk, 1,000/ct, 6,000/cs

MDSM611905

MedGel® Radiolucent Stress/Diaphoretic Foam Electrodes

RECOMMENDED FOR: CARDIOLOGY, CATH LAB, RADIOLOGY, STRESS TEST

- Plastic carbon snap for standardization throughout your facility
- High-performance gel and large conductive area provide clear tracings

Item No.	Description	Pkg.
MDSM611703R	Radiolucent Stress Foam	3/pk, 60/bx, 600/ct, 3,600/cs
MDSM611705R	Radiolucent Stress Foam	5/pk, 100/bx, 1,000/ct, 6,000/cs
MDSM611750R	Radiolucent Stress Foam	50/pk, 1,000/ct, 6,000/cs
MDSM611703RP	Premium Adhesive Radiolucent Stress Foam	3/pk, 60/bx, 600/ct, 3,600/cs
MDSM611705RP	Premium Adhesive Radiolucent Stress Foam	5/pk, 100/bx, 1,000/ct, 6,000/cs
MDSM611750RP	Premium Adhesive Radiolucent Stress Foam	50/pk, 1,000/ct, 6,000/cs

MDSM611705R

TAA Compliant Electrodes

RECOMMENDED FOR: CATH LAB, RADIOLOGY

- Made from fluid-impervious medical-grade white polyethylene material
- Long-term monitoring with high-tack medical-grade adhesive

Item No.	Description	Pkg.
MDS611805RAG	Radiolucent Foam	5/pk, 100/bx, 1,000/cs
MDS611505AG	Stress Foam with Solid Gel	5/pk, 100/bx, 1,000/cs
MDS611930AG	Stress Foam	30/pk, 600/bx, 6,000/cs
MDSLRT38	ECG Resting Tab Electrodes, Size Small	100/pk, 500/bx, 5,000/cs

MDS611805RAG

Electrodes

Repositionable Electrodes

Designed to adhere firmly even after being repositioned on the patient's skin.

MedGel® Repositionable Electrodes

RECOMMENDED FOR: ICU/CCU, EMERGENCY, OR, CATH LAB, RADIOLOGY, PICU, PATIENT ROOMS

- Designed with a conductive hydrogel, our repositionable electrodes are easy to remove and relocate at least once
- Plastic carbon snap for standardization throughout your facility
- Hypoallergenic

Item No.	Description	Pkg.
MDSM611200	Pediatric Solid Gel	5/pk, 100/bx, 1,000/cs
MDSM611300	Adult Solid Gel	5/pk, 100/bx, 1,000/cs

MDSM611200

MDSM611300

Adult Pre-Wired Electrode

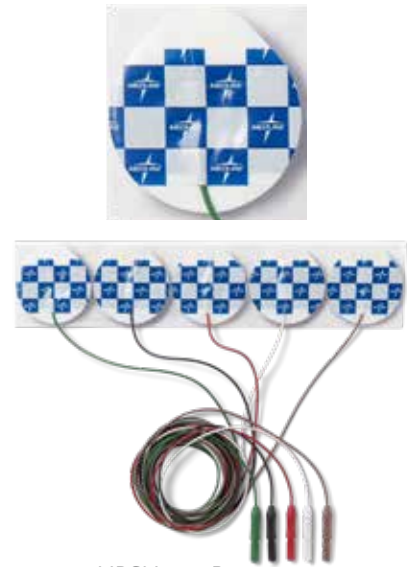

Specially designed to reduce application time in adult patients.

Five-Lead Prewired Radiolucent Foam Electrode

RECOMMENDED FOR: CATH LAB, RADIOLOGY

- Teardrop shape directs sweat around the electrode and stays securely attached during stress tests
- Made of comfortable foam that's impervious to fluids and features full-edge lift tab for easy removal
- High-performance gel and extended surface area help achieve clear tracings

Item No.	Description	Pkg.
MDSM61155R	5-Lead Prewired Radiolucent Foam	5/pk, 400/ct, 2,400/cs

MDSM61155R

Diagnostic Resting Tabs

Resting tab ECG electrodes use a highly conductive gel to ensure clear tracings for an accurate diagnosis.

MedGel® Resting Tab ECG Electrodes

RECOMMENDED FOR: CARDIOLOGY, EMERGENCY

- Silver/silver chloride adhesive gel delivers excellent adhesion and signal quality
- Large, solid conductive area allows maximum contact with skin

Item No.	Description	Pkg.
MDSM616001	Neonatal/Pediatric Resting Tab	100/pk, 500/bx, 5,000/cs
MDSM616101	Small Resting Tab	100/pk, 500/bx, 5,000/cs
MDSM616201	Adult Resting Tab	100/pk, 500/bx, 5,000/cs
MDSMIW616201	Adult Resting Tab, 10/card	10/pk, 500/bx, 4,000/cs

MDSM616001

MDSM616201

Electrodes

Wet Gel

Provides the highest grade of tracing for instant, high-quality pickup. Lift tab allows for easy removal.

MedGel® Wet Gel Stress/Diaphoretic Foam Electrodes

RECOMMENDED FOR: ICU/CCU, EMERGENCY, OR, PATIENT ROOMS

- Teardrop shape directs sweat around the electrode to keep it securely in place during demanding tracing applications
- Made of comfortable, thin, fluid-impervious, medical-grade foam

MDSM618305

Item No.	Description	Pkg.
MDSM618303		3/pk, 60/bx, 600/ct, 3,600/cs
MDSM618305	Wet Gel Stress Foam	5/pk, 100/bx, 1,000/ct, 6,000/cs
MDSM618350		50/pk, 1,000/ct, 6,000/cs

ECG Radiolucent Wet Gel Stress/Diaphoretic Foam Electrodes

RECOMMENDED FOR: CARDIOLOGY, STRESS TEST, EMS

- Designed specifically for situations requiring a robust adhesive with comfortable medical-grade foam that resists fluids
- High-performance gel and large conductive area provide clear tracings
- Teardrop shape directs sweat around the electrode to keep it securely in place during demanding tracing applications

MDSM619350R

Item No.	Description	Pkg.
MDSM619305R		5/pk, 100/bx, 1,000/ct, 6,000/cs
MDSM619350R	Radiolucent Wet Gel Stress	50/pk, 1,000/ct, 6,000/cs

MedGel® Wet Gel Offset Foam ECG/EKG Electrodes

RECOMMENDED FOR: EMS

- ECG/EKG electrodes feature an off-center stud lead connection
- Made of comfortable, thin, fluid-impervious medical-grade foam
- Liquid wet gel provides instant, high-quality trace pickup

Item No.	Description	Pkg.
MDSLFSVB01	Offset Stud, Wet Gel	30/pk, 1,200/bx, 4,800/cs
MDSLFSVM01	Offset Stud, Wet Gel with Snap Tab	30/pk, 1,200/bx, 4,800/cs

MDSLFSVB01

MDSLFSVM01

Electrodes

Small Adult/Pediatric and Neonatal Electrodes

Carefully designed with children in mind, our pediatric electrodes feature a small footprint, soft materials and greater gel coverage for gentle application and removal.

MedGel® Small Adult/Pediatric Foam Electrode

RECOMMENDED FOR: PICU

- With their smaller size these electrodes are a perfect fit for young patients
- High-performance gel and extended conductive surface ensure clear tracings
- Easy removal with lift tab

Item No.	Description	Pkg.
MDSM611055	Small Adult and Pediatric Foam	5/pk, 100/bx, 1000/ct, 6,000/cs
MDSM611050		50/pk, 1,000/ct, 6,000/cs

MDSM611055

MedGel® Small Adult/Pediatric Radiolucent Electrode

RECOMMENDED FOR: CATH LAB, RADIOLOGY, PICU

- Plastic carbon snap for standardization throughout your facility
- High-performance gel and extended conductive surface provide clear tracings
- Easy removal with lift tab

Item No.	Description	Pkg.
MDSM6112250R	Small Adult and Pediatric Radiolucent Foam	50/pk, 1,000/ct, 6,000/cs

MDSM6112250R

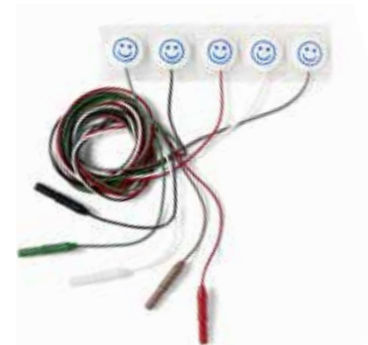

MedGel® Pre-Wired Neonatal Electrodes

RECOMMENDED FOR: NICU

- Painless removal with 100% gel coverage make these electrodes perfect for neonatal patients
- Baby-sized electrodes come pre-wired for convenience
- High-performance gel and extended conductive surface deliver clear tracings every time
- Hypoallergenic; Repositionable

MDSM61143R

Defibrillator Pads

Defibrillator Pad Electrodes

- Multi-function defibrillator pad electrodes are intuitive and provide reliable outcomes (Defibrillation, Cardioversion, Pacing, Monitoring)
- Color coded packaging to eliminate product selection mistakes
- 3 year shelf-life intended to reduce product waste
- 60" lead wire for defibrillator placement flexibility
- Available with leads-in and lead-out packaging

Physio-Control

Disposable Pulse Oximeter Sensors

Disposable Pulse Oximeter Sensors

FOR USE WITH: MONITORS USING THE NELLCORTM SPO2 MODULE

- Measure the blood oxygen saturation (SpO₂) and pulse rate (PR) of a patient when used in conjunction with a patient monitor that uses a Nellcor SpO₂ module
- The Nellcor SpO₂ module can be found in many manufacturers' monitors, including but not limited to GE, Philips, Welch Allyn and Mindray
- For single patient use only
- Available in different sizes for various patient populations

Item No.*	Description	Pkg.**
MDSP2ADT-N	Adult (>30kg)	96/cs, 24/bx
MDSP2INF-N	Infant (3kg–20kg)	96/cs, 24/bx

MPH1550

MPH3540

MPH3550

EvenCare® G2® Blood Glucose Monitoring System

- **Easy-to-use**—Voice assistance guides you through the testing process and provides results in either English or Spanish
- **No coding required**—Minimizes errors and inaccurate results
- **Fast test time**—Results in 6 seconds
- **Small blood sample size**—1 µL
- **Alternate site testing**—Option to test on the forearm, palm or fingertips
- **Memory option**—Stores 300 test times and can provide 7-, 14- and 30-day averaging
- **Alarm option**—Set reminders for up to 3 different times

Hypodermic Needles and Syringes

Safety Hypodermic Products

Nearly one-third of all sharps injuries involve disposable syringes, leading to the transmission of bloodborne viruses that are dangerous to personnel and costly to the healthcare system.¹ The good news is needlesticks are preventable. Medline has variety of easy-to-use safety hypodermic syringes and needles to reduce the risk of staff injuries and help improve the safety of your organization.

Hypodermic Needles and Syringes

Standard and Safety Insulin Syringes and Needles

We have a wide variety of premium insulin syringes and needles to meet all your needs. Our safety syringe features a needle shield that permanently locks in place after use, protecting staff and patients.

Our **safety insulin syringe needles** can be temporarily covered by pulling the shield forward; after injection, the shield is permanently locked in place by twisting. The shield feature can also be used when you're preparing the syringe in one area for safe transportation to the patient in another area.

Blunt Tip Needles

Item No.	Description	Pkg.	Dosage Units

Hypodermic Needles and Syringes

Safety and Standard Pen Needles

Our standard and safety pen needles feature thin wall technology for easy flow of medication during injection. The Passive Safety Mechanism on our safety pen needles covers the needle before, during and after injection, and requires no additional steps for activation. They're easy to attach and compatible with most pen injectors available.
